

Experience

Data Science Intern | *Incycle Digital Marketing* Dubai | 02/12/2021 - 16/12/2021

- Collected and organized datasets for analysis using Python and Excel
- Performed basic data cleaning and handled missing values
- Documented findings in reports and learned to interpret trends and patterns

Web Development Intern | *Incycle Digital Marketing* Dubai | 21/03/2021 - 4/4/2021

- Participated in improving user experience and fixing minor design bugs
- Gained exposure to real-world web deployment and collaboration tools

Emiratee Committee | *Universal American School* Dubai | 2021 - 2022

- Head of Finance
- Managed the financial planning and budgeting of cultural events celebrating Emirati traditions
- Collaborated with event coordinators to ensure accurate budgeting aligned with each event's needs

Education

Universal American School | *Highschool Diploma* Dubai | 2022

- Honor Award for academic achievement
- Advanced Placement Courses
- Model United Nations

American University of Sharjah | *BSc Computer Science & Engineering* Sharjah | Class of 2027

Imperial College Buisness School | Finance Essentials Course Dubai | 2023

- Earned an official certificate upon successful completion of this 6-week course
- Gained knowledge in time value of money, capital budgeting, and risk assessment techniques
- Explored asset valuation methods, including bond and equity valuation

Projects

Python Customer Lifetime Value Prediction Project (A):

- Engineered and evaluated supervised learning models to predict CLV using a structured customer dataset
- Implemented and benchmarked five regression algorithms: Linear Regression, SVM (linear, polynomial, RBF), and Feedforward Neural Networks
- Performed feature scaling , cross-validation, and visualized multivariate relationships using Python

Event Budgeting & Planning App:

- Still actively used by current committee members to plan and execute events such as UAE National Day and heritage celebrations
- Created a lightweight budgeting tool to support year-round planning of Emirati cultural events
- Improved financial transparency and planning through dynamic inputs and user-centric interface logic tailored for student-led event planning

Summary of Skills

Languages: Fluent in Arabic and English (spoken and written)

Technical Skills: Python & C++, Microsoft tools, Data Cleaning & Visualization, Google Workspace

Soft Skills: Basic Front-End Development (HTML/CSS), Problem-solving, Logical & Algorithmic Thinking, Data interpretation, Modular & Object Oriented Programming, and working with data structures.
